

## Algeria

*Wheat, Barley, Oats and Triticale*

Standards	Seed Classes		
	Pre-basic	Basic	Certified
<b>Field Standards</b>			
Rotation (min. years)			
Isolation (min. meters)			
Other varieties (max. %)	0.1	0.1	0.3
Other species (max. %)			
Noxious weeds (max. %)			
Infected plants (max. %)			
<b>Seed Standards</b>			
Pure seed (min. %)	99	99	98
Other crop seeds (max. no/500g)	4	4	10
Cereal species	1	1	3
Other species <sup>a</sup>	3	3	7
Weed seeds (max. %) <sup>b</sup>			
Infected seeds (max. no/500g)			
Sclerotia or Ergot	1	1	3
Germination (min. %)	85	85	85
Moisture content (max. %)	14	14	14

<sup>a</sup> For other species 1 out of 3 (for pre-basic and basic seed) and 3 out of 7 (for certified seed) could be *Raphanus raphanistrum* or *Agostema gitagho*.

<sup>b</sup> The weeds are: *Melilotus* spp., *Melampyrum arvense*, *Cephaloria syriaca*, *Lolium temulentum*, *Allium* spp., *Bromus* spp., *Avena fatua*, *A. sterilis*, *A. ludoviciana*.

NB: The seed should be free from *Ustilago nuda*, *Neovossia indica*, *Tilletia contraversa* and Barley Stripe Mosaic Virus (BSMV) and live insects such as *Trogoderma granarium*; *Sitophilus granarius*, *S. oryzae*.

## Algeria

### *Rice*

Standards	Seed Classes		
	Pre-basic	Basic	Certified
<b>Field Standards</b>			
Rotation (min. years)			
Isolation (min. meters)			
Other varieties (max. %)	0.3	0.3	1.0
Other species (max. %)			
Noxious weeds (max. %)			
Infected plants (max. %)			
<b>Seed Standards</b>			
Pure seed (min. %)	98	98	98
Other crop seeds (max. no/500 g)	4	4	10
Cereal species (red rice)	1	1	3
Other species ( <i>Panicum</i> )	1	1	3
(cyperus)	0	0	0
Weed seeds (max. %)			
Infected seeds (max. no/500 g)			
Sclerotia or ergot	1	1	3
Germination (min. %)	85	85	85
Moisture content (max. %)	14	14	14

The seed should be free from insects such as *S. granaria*, *S. oryzae*, *T. granarium*

**Algeria***Maize*

Standards	Seed Classes		
	Pre-basic	Basic	Certified
<b>Field Standards</b>			
Rotation (min. years)			
Isolation (min. meters)			
Other varieties (max. %)	0.3	0.3	1.0
Other species (max. %)			
Noxious weeds (max. %)			
Infected plants (max. %)			
<b>Seed Standards</b>			
Pure seed (min. %)	98	98	98
Other crop seeds (max. %)	None	None	None
Weed seeds (max. %)	None	None	None
Infected seeds (max. %)			
Germination (min. %)	90	90	90
Moisture content (max. %)	14	14	14

## Algeria

### *Faba bean, Chickpea, Lentil, Haricot bean and Pea*

Standards	Seed Classes	
	Basic	Certified
<b>Field Standards</b>		
Rotation (min. years)		
Isolation (min. meters)		
Other varieties (max. %)	0.3	1
Other species (max. %)		
Noxious weeds (max. %)		
Infected plants (max. %)		
<b>Seed Standards</b>		
Pure seed (min. %)	99	98
Other crop seeds (max. %) <sup>a</sup>	0.1	0.2
Infected seeds (max. %)		
Germination (min. %)	85	85
Moisture content (max. %)	12	12

a This refers to *Allium* spp., *Avena fatua*, *A. sterilis*, *A. ludoviciana*, *Bromus* spp., *Cephalaria syriaca*, *Lolium temulentum*, *Melilotus* spp., *Melampyrum arvense*, *Cuscuta* spp. and *Orobanche* spp

NB: The seed should be free from legume diseases (*Corynebacterium flaccifariens*, *Pseudomonas syringae* p.v.pisi, *Xanthomonas campestris*, *Isariopsis griseola* (mosaic)) and legume insect pests (*Accanthoscelides obtectus*, *Bruchus affinis*, *B. atomarius*, *B. pisorum* and *B. rufimanus* )

**Algeria<sup>1</sup>***Rape seed*

Standards	Seed Classes	
	Basic	Certified
<b>Field Standards</b>		
Rotation (min. years)		
Isolation (min. meters)		
Other varieties (max. %)		
Other species (max. %)		
Noxious weeds (max. %)		
Infected plants (max. %)		
<b>Seed Standards</b>		
Pure seed (min. %)	98	98
